RICHMOND MAN MAY DIE FROM BURNS OF POWDER EXPLOSION

BURNED FROM HEAD TO FOOT RAY SWANSEN IS FIGHTING FOR HIS LIFE

Ray Swansen, aged 27, resident of the West Side, and an employee on the work that is going on at the immense dam at the East Bay Water Company in San Pablo canyon, is at the Providence hospital, Oakland, so badly burned that it is a serious question as to whether he will recover or not.

The accident happened at the dam Wednesday morning, and the injured man, who was thrown about fifty feet by the force of the powder explosion, was picked up in an unconscious condition, wrapped in blankets and rushed by automobile to the Oakland hospital.

Dr. P. F. Abbott, an Oakland physician, was summoned and everything is being done for the injured man.

Swansen is a mass of bandages from head to foot, and whether or not he has suffered internal injuries in addition to the burns cannot be determined for some time.

For some unaccountable reason no information was given out concerning the accident, and the Record-Herald has only been able to gather meager facts.

It seems that Swansen was working with some packages of powder, when, it is said, that a spark from the steam shovel ignited the powder, setting it off with disastrous results. As to whether there were any others injured could not be ascertained.

Swansen was burned from head to foot, but it is believed that he will not lose his eyesight, as he threw up his hands to his face. His hair was singed off, his hands and arms received third degree burns, which mean that both the outer and inner skin are badly injured.

His clothing took fire, and before the flames could be put out his body, from the hips down, including his feet, were left in a very serious condition.

BODY MISSING PRIEST FOUND BURIED AND SHOT RIDDLED

SAN FRANCISCO, Aug. 11.—Late yesterday afternoon William A. Hightower, who furnished the police with the information which led to the finding of the body of Father Patrick E. Heelan, numbered Catholic priest of Colma, was taken to the spot where the body was found by the police. This was done in the course of obtaining a complete statement concerning the crime from Hightower.

The local police state that a charge of murder will probably be made against Hightower, who led the police to the burial spot.

Hightower says he obtained his information from Betty Mason, a woman of the night life, who claimed to have wormed it out of a drunken foreigner several nights ago. The foreigner, according to Hightower's story, boasted that his revolver had killed a man, and spoke of the body being guarded by "a man who sits and cooks flapjacks."

This reminded Hightower, he says, of an advertising sign in the Ocean Shore region, south of San Francisco and west of Colma, above a sandy cliff. To this spot, near the Thornton station on the Ocean Shore railway, Hightower led the police at night. In a niche on the cliff the police unearthed the body of the slain priest, buried in the sand.

Hightower is a baker by trade and formerly conducted a bakery in Fresno. He is 42 years old and said

REDUCTION OF WAGE POSSIBLE IS STATEMENT OF OFFICIAL

As the result of a meeting held at Martinez yesterday of 22 representatives of the Oil Workers' Union from all parts of the state, Clarence J. Yarrow, district councillor of the organization, stated that three of the big oil companies of the state have indicated a willingness to co-operate with the government in averting a strike of the workers in the oil fields and the refineries, which has been set to take place September 1st.

Yarrow said that he was not at liberty to name the three companies which, he says, have acceded to the demands of the workers, as United States officials have asked that negotiations be left in the hands of federal mediators, now on their way to this coast.

Plans for patrolling all leases and pipe lines of the oil companies, in the event of a strike, were also completed at yesterday's conference. The patrols will consist of union members of American Legion.

Yarrow said that the workers are willing to accept a wage reduction in the event it is shown to be necessary at the conference with the operators and the government. He said: "From an economical standpoint, a reduction is debatable, but there may be psychological reasons why we might have to accede to a reduction."

"The reduction in the prices of goods in the oil field towns has not kept pace with those in the larger cities of the state."

Richmond Will Furnish Fuel Forest Patrol

PORTLAND, Ore., Aug. 11.—Resumption of airplane patrol of national forests in Oregon will be effected within two or three days, following a communication from the Washington headquarters of the forest service to George C. Cecil, district forester, authorizing him to pay for gasoline sufficient to last until the end of the fire season, it was announced at forestry headquarters here today.

Captain Lowell B. Smith, in charge of the patrol base at Eugene, was notified early today by Cecil to order a carload of gasoline from Richmond, California, about 450 miles distant. It is thought the fuel will arrive in Eugene in three days. Immediately after its arrival, according to Cecil, patrol of the forest will be resumed.

TAILOR'S BAIL SET AT \$5000: HEARING FOR AUGUST 18TH

Martin (Matt) Jones, now in jail at Vancouver on a charge of perjury as related exclusively in the Record-Herald, has secured bail in court in that city, and his bail fixed at \$5,000.

The police received a dispatch from the northern city officials last night to that effect and also stating that the hearing would come up on the 18th of this month.

This means that the extradition papers, that have been asked for, will have to be at that point on the date of the hearing.

District Attorney A. M. Tanning has already taken the matter up with Governor W. D. Stephens and expects to get action in a few days.

Jones was formerly in business at 923 Macdonald avenue.

OFFICIAL PAPER CITY OF RICHMOND

THINKOGRAPHS by F. J. HULANISKI

HOW SOON WE FORGET

When our army of young men were ready to go forward to that long battle line where the armies of autocracy and oppression were facing the armies of the free, oh, how we did cheer them, and congratulate them, and wish them Godspeed! We marched in parades to the railway stations, with bands playing flags flying, men shouting and women weeping! They went, not as reluctant victims of misfortune or a fatal chance, but rather as our chosen ones, the pick and flower of our nation's manhood, whole of body, sound of mind and spirit, as all of us would like to be. And we who were too old or too weak, or in some other respect unfitted to go in the body went with them in spirit. In imagination and in sympathy we were with them there in those bloody battles and along the terrible firing lines, where the shot and shell, the gas and liquid fire made a hell upon earth, and countless thousands fell, fighting for their country, for OUR country, and fighting FOR US! At home we did all that we could to assist them and to contribute to their comfort. We gave our money to every drive for the sale of Liberty Bonds, for the Y. M. C. A. and Red Cross and other good causes, and daily and nightly we prayed that our boys might be spared to return to us, their loved ones. Never once did the courage of those brave lads fail or their determination dull. They did their full part, their entire duty, to the country and to us, and finally when victory had been achieved and the enemy whipped and subdued, the carnage had been waded through and a bravery shown and proved that brought the cheers from the whole civilized world, the came back, such of them as were yet alive, and with them were many who were crippled for life, maimed, sick, broken in health for life, poor, and with no place to go that they might call home. And now what, in these few years' since? There are crippled and gassed soldiers in nearly every poorhouse in the land. Oh, the shame of it!

In spite of Henry Ford, the fact remains that the Jews are not all bad by any means. To their credit be it said that when they came to America they became Americans, and without any hypen of any kind. Also, the New York records show that that city, the biggest in the country, had more men enlist in the war under the name of Cohen than under any other one name; which was about the time Ford's crazy peace ship sailed across and then sailed back again.

Senator Norris of Nebraska talked three hours and then collapsed. This should teach the rest of 'em, including La Follette, who has been known to talk in the Senate for three full days at a stretch, to quit talking against time. A month should not be made into a photograph.

Talk about your women's rights! They are already fast being curtailed. A Chicago jury has just held that a woman has no right to kill her husband.

It is now a cliché that taxes are not going to be lowered a bit, but will average \$60 per capita. May the Lord temper the congressional tentacles to the shorn wad.

Frank Cobb truthfully writes that it won't make any difference who wins the next war, as victor and vanquished will perish alike in the ruins of civilization, which they will have utterly destroyed.

Mr. Bryan has a wonderful vocabulary; it runs as though lubricated by Rockefeller oil, but he was born with an impediment in his politics.

During the war and for two years after we all gave until it hurt, and since then give until we howl.

The presentation speech is relatively unimportant if the present is satisfactory.

Wicked people do not die; at least none of the inscriptions on the tombstones indicate it.

A man's notion of a happy home is where everybody is glad to wait upon him.

WHAT IS THE SECRET?

Now, Mr. Harding, Messrs. Cabinet, Mr. Senator and Mr. Congressman, we want to ask you a plain, blunt question, from a plain, blunt man, based upon plain, blunt common sense. If we were your next-door neighbor and from day to day you saw us going down to the hardware stores, powder factories and similar places and spending over 90 per cent of our entire family income for guns, pistols, powder, dynamite, swords, poison gas, bombs, liquid fire, poisoned foods, T. N. T., and similar instruments of murder and crime concocted by the devil and brewed in hell, and many of our children were impoverished and hungry because we spent nearly all of our money that way, instead of for benefit what would be your honest opinion of us? Would you think we were about as bad as the old Hun Kaiser, or would you think we had gone stark raving crazy and ought to be put in a madhouse and wear a straightjacket before we killed somebody, burned down his home, ravished his wife and daughter and grabbed his other possessions? You would certainly think us one of the two, wouldn't you, if we spent more than three-fourths of our entire income in such a murderous and criminal manner? Well, that is exactly what you are doing now and have been doing ever since you came into power. It is stated that you are spending nearly 93 per cent of the people's money you are taxing them into the poorhouse for in just exactly that manner—for wars past and present and preparations for more wars in future. Which horn of the dilemma, then, do you want? Are you as bad as Old Kaiser Bill, who wanted to grab the whole world and murder half the people, or are you just bughouse crazy? Prior to 1914 the nation spent two billions a year on war; now they are spending nearly ten billions, this nation being among the foremost. If the two billions meant bankruptcy, as Lloyd George said, what does the ten billions mean? The above being true, why should not every one of you be recalled from office and people elected who are sane instead of insane?

"It is important to begin your day right," says one lady lecturer. "After the bath and toilet, get the makings and construct a fine cocktail, and while the lemon peel oil is dancing on the surface of the ice contents, throw the whole business into the slop bucket." Hub! Why waste all that valuable time?

If there was any possible way newspaper publishers could realize one cent apiece on the useless propaganda and Congressional Records which litter their mail from day to day, they would soon have Morgan and Rockefeller looking like thirty cents.

Long ago we wrote an item to this effect: "Tax the bachelors and give the money to the married people." And now Montana is doing that very thing. It taxes its bachelors \$3 each and uses the money as a widow's pension fund.

Washington reports that there is a shortage of one dollar and two dollar bills. Washington is inexpressingly stupid. We ascertained all about that shortage years ago.

The administration handed the railroads half a billion a few days ago and will repeat the dose soon. What did it hand the rest of us. The same old lemon, the same old cold soup.

The government could save a million dollars a month by bringing our soldiers back from Europe. Why is it not done?

A widow has been brought into court for having 700 bottles of beer in her home and a complete brewing outfit. She won't be a widow long.

A reasonable price depends somewhat upon whether one is buying or selling.

There may be some satisfaction in revenge, but it is hard to ever collect a cent on it.

A Pullman porter threw a bandit off the train. He wouldn't stand for competition.

Tragic Death Mary Mendonza

Wagon Crushes Body Badly

Miss Mary Mendonza, 27 year old daughter of Mr. and Mrs. Frank Mendonza of Marsh Creek, near Brentwood, was instantly killed yesterday when she fell from a heavily laden hay wagon and was crushed under the wheels of the wagon.

The fatal accident occurred as Miss Mendonza and her father were riding down a hill from their home on the wagon. There were four horses in the team. When they were part way down the hill the brakes gave way and the father climbed off the wagon to make a repair. He placed a rock under the wheels but it gave way and the team started.

Miss Mendonza, who was sitting on top of the pile of hay, grabbed for the reins and slipped from the wagon, falling under the wheels. Miss Mendonza was frightfully crushed and died almost immediately.

Fiery, Itching Skin Is Quickly Soothed By Using Sulphur

Menth-o-Sulphur, a pleasant cream, will soothe and heal skin that is broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Menth-o-Sulphur—always heals eczema right up.

A small jar of Menth-o-Sulphur may be had at any good drug store.

Contestants Striving to Retain First Place in Race

The race is speeding up as the end looms near, and the hustling candidates strive hard to outdistance their opponents and land first place honors. Miss Tressa Palmer tops the head of the list this morning after having rested in fourth and fifth place for the past several days. The leader, however, is able to claim first place honors by only a few votes, as the volume of votes polled by John Ryan brings his total to within a few subscriptions of first place and forcing the speed to a fast pace.

Gritting their teeth with absolute determination, the contestants in the

FIRST PLACE: Miss Tressa Palmer.
SECOND PLACE: Mr. John Ryan.
THIRD PLACE: Miss Victoria Tofoletti.
PERIOD CLOSES Saturday night at 10 o'clock.
GRAND FINALE: One week from Saturday night.
JUDGES OF ELECTION: C. C. Olney, Roy Le Moine, H. G. Siddham, Larkin J. Younce, Aubrey Wilson, Zeb Knott and Herbert Schrader.
PRIZES TO BE AWARDED: One Buick, one Dodge, \$500 third prize, three \$100 prizes, 20 per cent commission to active non-prize winners.

CANDIDATES WORKING HARD
There are no shirkers in the race, apparently. Everyone is on the jump to get as many votes as possible before now and tomorrow night. Truly there is a goodly number of "live wires" in the campaign. Friends of contestants are also on their toes so much so that it is sometimes difficult to determine which is the candidate, the boosters themselves are so active for their favorites. Candidates' friends are determined that their favorites are going to take the lead. Everybody is "up in arms" fighting with all their might. Richmond and the entire surrounding country is aroused—interest is at white heat.

GET THE BIG ONES
The big subscriptions are what count fastest now. Two five-year subscriptions count almost a million votes on the present big rate schedule. A half dozen of these would pile up the immense total of nearly 2,250,000 votes for any candidate. Votes pile up mighty rapidly in this present Big Vote period, but your last chance at the big votes is tomorrow—just twenty-four more circuits of the minute hand and the opportunity will have passed beyond recall. The big vote offer will never be repeated or extended; promptly at 10 o'clock tomorrow night it expires forever.

Mechanics Win Final Contest Defeat League Champs 3 to 2 Pinkerton Shows Great Stuff

Ending the Twilight League season in the proverbial blaze of w.k. glory, the Mechanics administered a beating to the Refiners at First Street park yesterday, squeezing victory out of a tight place by a 3 to 2 score.

Pinkerton was on the slab for the Mechanics and had a world of stuff to crack the champ hitters of the Refiners with. They all looked about as if they were going to be hit by the Refiners, but where Pinkerton only allowed three hits, Cy gave six. Cy had six strike-outs to his credit, also a creditable showing.

The fatalities of the farewell fray began in the first inning. Childs drew a free base, and was advanced to second by Bartram's sacrifice bunt. Steen then smashed out a long single to scored Childs. Steen going to second on the play. Schaller sacrificed with a mighty high fly that scored Steen.

Zimmerman started what looked like a fresh whirl by getting a free base on a quartet of balls. O'Connor singled with a hot duster past second, advancing Zim one base. Zim stole third, but a moment later was caught off third on a long lead, Pinkerton making the put-out in the usual melee.

Nothing daunted by the two-run start, the Mechanics started out with Topaz making an easy out on a grounder to Steen. Robin walked and Schwake singled into center with a bingle that let Robin to third. Robin scored on the play. Chamberlain flied out to Schaller and Schwake came home after the catch. Kogler, c. scored on the play. Burns, cf. scored on the play. Cleek, c. scored on the play. Green, 3b. scored on the play. Pinkerton, p. scored on the play. Madson, 1b. scored on the play. Ziemer, 3b. scored on the play.

IT PAYS TO ADVERTISE

Truthfully

We believe so. Some firms to-day are offering "hair-raising" specials; even below cost. Does it sound possible that they can do it? Can they sell below cost without a catch somewhere? Its all to fool the public but it does not pay.

After all, it pays better to buy where you get A-1 Quality, A-1 Service and everything at the lowest possible price. All these are found at
